Breakpoint Billiards - Team Short Race Matrices

8-Ball Short Race Matrix (Max 5, Min 2)

Handicaps scaled from the standard singles matrix to compress the maximum race to 5.

** Matrices are read as Row vs Column. The first number is the ROW player's race, the second number is the COLUMN player's race.*
** E.g., Level 8 vs Level 0 in 8-Ball: Row 8 (5) vs Col 0 (2) -> Race is 5-2.*
** Scaled strictly mathematically from the standard singles matrix.*

9-Ball Short Race Matrix (Max 6, Min 2)

Handicaps scaled from the standard singles matrix to compress the maximum race to 6.
